Niagara College is a leader in applied learning with programs that are enhanced by digital learning technologies. At Niagara College, we immerse students in practical and experiential exercises in partnership with regional, national and global industries that make our graduates world ready and work ready.

Land Acknowledgment

Niagara College acknowledges that we are gathered on the shared traditional lands of the Anishinaabe and Haudenosaunee. We offer our sincere gratitude to them as the stewards of this land, which is protected by the Dish With One Spoon Wampum agreement's three principles: to take only what you need, leave enough for others, and always keep the dish clean. Today, many First Nations, Métis, and Inuit communities from across Turtle Island continue to live and work in this territory. Acknowledging the peoples whose territory we are on, and the agreements that guide their stewardship of the land, reminds us to reflect on and respect their unique relationship to this land. It also is an invitation for all of us to identify and engage in actions that respect and reinforce our commitments to Truth and Reconciliation and Indigenous Rights, including the Colleges and Institutes Canada Indigenous Education protocol.

Institute for Global Education and Training

Customized global consultancy, education and training services powered by Niagara College.

As Canada's leading global college, Niagara College's Institute for Global Education and Training is a catalyst for sustainable change across the globe by providing world class education and training solutions aligned with the needs of our partners.

Niagara College develops strong partnerships locally and globally to increase access, decrease barriers and support our communities and employers.

In advancing educational, social, community and environmental development around the globe, NC's Institute for Global Education and Training works in partnership with a diverse range of organizations. Our global collaborators include governments, philanthropies, communities, corporations (both for-profit and non-profit), non-governmental organizations (NGOs), academic institutions, and individuals committed to making a difference. Our programs are designed to support partners in achieving their goals while also aligning with the United Nation's Sustainable Development Goals.

Our Team

Our dynamic team of experts come from both industry and academia. We excel in delivering innovative, customized applied education solutions, empowering communities. We have specialists with industry and postsecondary experience in:

- Customized training and consulting
- Specialized postsecondary program development
- Capacity building
- International development projects
- Educational services
- Guest speaking/keynotes
- Global campus operations including partner delivery locations
- Compliance and reporting
- Global business development

NC's Institute for Global Education and Training delivers expertise in nine key areas

Competency-Based Education and Training Program

According to the United Nations Educational, Scientific and Cultural Organization (UNESCO), competency-based education is an educational model centered on the student. It focuses on the development of competencies in students and on demonstration of their mastery. In contrast with the traditional model, it is not based on the credit hour-based system. Rather, it is a more holistic approach to education (UNESCO, n.d.).

Prepare for an enriching journey through our all-encompassing program. It begins with an insightful overview of Competency-Based Education and Training (CBET) and then dives into the intricacies of implementing this transformative model, guiding you step-by-step through the entire process.

Master the skills of competency identification and development, along with conducting competency-based assessment and evaluation.

Unlock the ability to implement different learning pathways with adept strategies for monitoring and adjustment.

Delve into the art of adapting instructional materials and activities to suit diverse needs and circumstances.

Explore effective methods to promote equitable access and foster inclusive practices within CBET.

Build your global capacities through this one-week program with Niagara College's Institute for Global Education and Training to:

- Articulate the fundamental principles, philosophies, historical context, and global evolution of CBET
- Analyze and identify core competencies, conduct job and task analysis, and develop competency frameworks that guide curriculum design and program planning
- Classify appropriate assessment methods, authentic assessments, and rubric alignment with learning outcomes, and demonstrate constructive feedback to learners in the context of CBET
- Explore instructional materials for various modalities, active learning techniques, and differentiated instruction to promote competency mastery
- Relate gender equity, building partnerships for resource access, community based and alternative learning options, and online tools to learner success
- Leverage the use of technology including a learning management system (LMS) to effectively enhance CBET practices where applicable
- Demonstrate a commitment to continuous improvement, self-evaluation, and professional development

This program is popular among:

- Government education professionals
- Educational institutions interested in developing CBET skills

Gender and Social Inclusion Leadership Program

Develop a comprehensive understanding of gender and social inclusion within institutions and discover tools and resources to apply your newfound knowledge through the Gender and Social Inclusion Leadership Program.

Learn to align institutional processes and build frameworks to create an inclusive environment for all interested partners.

Engage in the exchange of ideas and expertise with a community of Gender and Social Inclusion Leadership learners, establishing a foundation for future learning opportunities.

Elevate your capacities in key areas through the program delivered by Niagara College's Institute for Global Education and Training on:

Gender

- Discover mechanisms, resolutions, and institutional processes to safeguard and support all genders in educational contexts
- Recognize relevant interested partners and data sources related to marginalized groups' participation in education and the labour market
- Articulate the benefits of aligning institutional programs, budgets, policies, and procedures to gender-based data
- Align monitoring and evaluation frameworks with gender action plans to track progress towards gender equality and social inclusion
- Analyze gender-based labour market trends, identify biases and barriers, and assess the impact of policies and programs on gender equality, gender equity, and gender mainstreaming
- Understand the principles, concepts, and frameworks related to gender and social inclusion
- Connect principles, concepts, and frameworks to policies, programs, and practices to support gender and social inclusion, gender equity, and gender mainstreaming

Equity, Diversity and Inclusion (EDI)

- Explore best practices in EDI
- Learn to identify and apply tools required for the development of an equitable, diverse, and inclusive environment
- Develop an action plan to embed inclusive practices throughout your organization
- Establish practical approaches to engaging and collaborating with interested partners in your EDI initiatives
- Identify performance metrics and institutional benchmarks
- Cultivate tools and resources to support inclusive practices that promote gender equality

Global Sustainability Leadership Program

Touch on complex and sustainability-related global issues through an interdisciplinary and cross-sectoral approach, essential for prioritizing climate mitigation and adaptation solutions.

Engage in the exchange of ideas and expertise with a community of Global Sustainability learners, establishing a foundation for future learning opportunities.

Highlights

- 1 Greening TVET
- 2 Introduction to the Sustainable Development Goals (SDGs)
- 3 Building the Business Case for Sustainability
- 4 Benchmarking Your Sustainability Efforts
- 5 Meeting Interested Partners' Expectations

Build your global capacities with this program delivered by Niagara College's Institute for Global Education and Training through the following modules:

Greening Technical and Vocational Education and Training (TVET)

- Uncover global best practices in implementing the Greening TVET process

Introduction to the United Nations' Sustainable Development Goals (SDGs)

- Learn to identify and apply tools required to integrate the SDGs in your work

Building the Business Case for Sustainability

- Create an action plan for your organization to embed sustainability within

Teaching and Learning in the 21st Century Program

Enhance your pedagogical skills through the acquisition of tools, techniques and strategies that can be adapted and applied within your classrooms.

Immerse yourself in understanding the modern- day learner, and discover how to design, develop and deliver instruction to enhance their education experience.

Expand your knowledge of how to effectively integrate technology within the classroom, create an inclusive classroom, foster student-centred learning, as well as manage 21st century classrooms.

Build your global capacities through this program delivered by Niagara College's Institute for Global Education and Training to:

- Utilize 21st century teaching methodologies and techniques to deliver interactive lessons that actively engage and stimulate students and promote student mastery of learning outcomes
- Adapt best practices to ensure proficiency in classroom management
- Select student-centred approaches to put the focus on learning, create and sustain a positive learning environment, and foster student self-regulation and motivation
- Create an inclusive classroom that recognizes and meets the needs of individual students including those with learning disabilities
- Implement strategies to foster student success and support retention

- Highlights
- Inclusive Classrooms | Student-Centred Learning
Classroom Management | Technology in the Classroom
- General Topics Covered
- 1 Inclusive and Accepting Learning Environments
 - 2 Students with Special Learning Needs
 - 3 Supporting Student Success and Retention
 - 4 Tracking and Evaluating Student Learning
 - 5 Active Learning and Engaging Students
 - 6 Building Student Confidence and Motivation
 - 7 Proven Methods of Classroom Management
 - 8 Building Classroom Dynamics
 - 9 Classroom Management within Instructional Design
 - 10 Managing Disruptions
 - 11 Educational Technology Analysis
 - 12 Developing Interactive Activities with Technology
 - 13 Facilitating a Technology-Enabled Lesson

Global Human Resources Leadership Program

Gain a deep understanding of strategic global human resources (HR) practices to position your organization to achieve your short- and long-term goals.

Explore fundamental HR practices by critically examining all aspects of the employer-employee relationship and acquire tools and resources that will best position your organization for success in the future.

Examine global HR policies and practices in a highly interactive modularized program that will be customized to meet the needs of your organization, offering the opportunity for face-to-face, hybrid, and/or asynchronous delivery with leading HR experts in their field.

The proposed selection of modules include:

- Foundations of Strategic HR and Strategic HR Planning
- Strategic Talent Acquisition - Recruiting and Selecting the Best and the Brightest
- Embracing Equity, Diversity and Inclusion (EDI) within your Workplace
- Global Talent Management - Best Practices in Onboarding
- Global Talent Management - Developing your Talent Pipeline through Exemplary Training and Development Practices
- Global Talent Management - Building Strong Employee Relationships through Effective Performance Management

#1 Research College*

IN CANADA FOR 2023

*researchinfosource.com

Elevate your capacities with the Applied Research and Innovation Program, which is comprised of a series of interactive training modules led by Niagara College Subject Matter Experts.

The program includes:

- Modules highlighting best practices and processes in Applied Research and Innovation in Canada and globally.
- The opportunity to engage in face-to-face or virtual interactive synchronous sessions hosted using Zoom.
- Access to an asynchronous learning platform with reading materials, videos, short multiple-choice exams, and a learning forum.

English Language Professional Development Program

Empower yourself to succeed on a global stage through English language skill development.

Get prepared to study, live and work in English-speaking environments with the support of Teaching English as a Second Language (TESL) certified instructors.

Open opportunities for global communication, collaboration, and career advancement, and enhance your access to international markets.

Enhance your global capacities through this program delivered by Niagara College's Institute for Global Education and Training and Niagara College's School of English Language Studies to:

- Elevate the clarity of your communication skills through strategies and accent modification techniques
- Refine your academic writing and knowledge of grammar
- Upgrade your reading abilities
- Boost your vocabulary development
- Expand your listening skills
- Master note-taking techniques

Niagara College's Institute for Global Education and Training designs customized capacity-building modules that will actively strengthen your specialized pedagogical knowledge and skills through the acquisition of tools, techniques and strategies that can be adapted and implemented in your institution.

Global Entrepreneurship and Innovation Program

Embark on a journey from employment to entrepreneurship and uncover your true potential, taking your business idea from concept to fruition with the necessary knowledge and expertise.

Immerse yourself in our comprehensive series of interactive workshops crafted to ignite your entrepreneurial spirit and jumpstart your venture to small business ownership with actionable guidance and clear direction.

Build your capacities through this program delivered by Niagara College's Institute for Global Education and Training through the following topics:

Creativity

- Distinguish opportunities versus ideas, understanding the three general approaches used by entrepreneurs to identify these opportunities
- Identify personal characteristics of entrepreneurs
- Identify techniques used in idea creation

Business Model

- Take an investigative look at seven diverse types of business models

Business Feasibility

- Learn about feasibility analysis, its purpose and implications

Legal and Financial

- Dive into business organization, licenses, permits and debt versus equity funding

Marketing

- Gain an overview of the marketing model, the four Ps of Marketing (product, price, place, and promotion) and strategies for identifying customers

Sales and Customer Service

- Explore the sales process, customer service and technology resources, and Customer Relationship Management Systems (CRMs)

Human Resources

- Investigate team selection, types of labour, recruitment initiatives and determine management styles

Business Plan

- Apply methodology to conceptualize an idea into a detailed business plan and learn how to effectively present the plan to potential investors

Testimonials

Chandrakasem Rajabhat University (CRU)

“ One important program outcome of this customized capacity-building program was to build a strong relationship between CRU and NC. We deeply appreciate NC team’s devotion to our learning and for arranging such a remarkable program in which we developed our English skills. Personally, I have also gained a solid knowledge about educational applications and how to better engage and motivate my students to learn more effectively through technology. ”

Piyaporn Thacheen

Chandrakasem Rajabhat University (CRU) Vice-President and Professor, learner in NC’s virtual customized capacity-building program

Skills to Access the Green Economy Program (SAGE)

“ Working with NC has been an incredible experience. The exchange of knowledge has been profound, with NC contributing significantly to Jamaica’s development. What stands out the most is Niagara’s role as active listeners and their dedication to meeting the needs of local partners. In Jamaica, we have a saying that goes, ‘dance at home before you dance overseas’, and that is what NC does. NC’s commitment to sustainability demonstrates its forward-thinking approach and aspiration to stay at the forefront of development. What NC is accomplishing in Niagara mirrors its global initiatives. ”
