## A Space to Grow, Research and Innovate

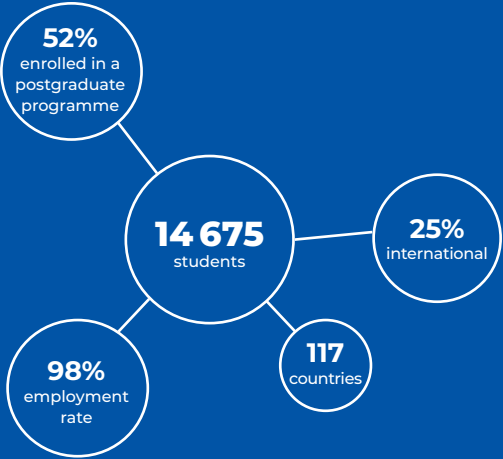

Iscte – University Institute of Lisbon is a public research-oriented University, founded in 1972. It is proud to be one of the most dynamic and innovative universities in the country, creating and transferring knowledge to society according to the highest international standards.

Iscte offers programmes in the areas of management, sociology and public policy, social sciences and humanities, architecture, information technology and applied digital technologies.

Our Lisbon campus is located in the city centre, surrounded by green spaces and shops, with quick access to all the the residential and leisure areas of the metropolitan area.

Iscte-Sintra is our second campus, created with the aim of offering innovative degrees that combine technologies and social sciences.

Iscte-Sintra offers 10 undergraduate programmes and 3 new Master's programmes for the 2025/2026 academic year.

Iscte's most important strategic goal is to foster the international and intercultural dimension of education and research.

With partnerships and academic programmes spanning 450 universities across the globe, our students and faculty enjoy unparalleled opportunities for a truly unique international experience.

Iscte – University Institute of Lisbon is part of the PIONEER Alliance, a European University campus open to students, teachers and technicians to develop common teaching, research and knowledge transfer programmes.

We play a major role in educating and training qualified specialists and personnel.
